Dear Jeff:

I want to thank you for your note, it was greatly appreciated. Your methods have already become a great help to me. I had been so engrossed in coordinating Technology College that I couldn't shift gears and get into what I had to do for my next classes. After hearing your talk in the morning and then some of it again at the luncheon, I came back to my desk, which was a mess, and organized everything. I had someone help me put all items dealing with Tech College in order and either filed away or thrown away. Having completed this seemingly overwhelming task, I was able to put Tech College in the back of my mind and get on with my new tasks.

This being Monday morning, I felt much more in control when I arrived at my desk. So again I want to say thanks and I hope to see you again in the future.

Best Regards,

Diana Flood
