Dear Mr. Davidson:

I am a student at UNC-Wilmington and I attended the Cape Fear SMEI meeting with Mr. James Murrill where you gave a presentation in March.

As a graduating senior, I found your speech to be very enlightening. Upon entering the workforce, I will keep in mind the five mega realities and hope they don't burden my responsibilities. Even more importantly, I will follow the "fresh air" principles and other recommendations as you have discussed them. I believe these will benefit me in my upcoming career.

I enjoyed your presentation and feel breathing space is essential to everyone.

Sincerely,

A handwritten signature in cursive script that reads 'Andrea L. Barber'.
