SUBJECT: "Breathing Space" Seminar TAR Convention in Chattanooga
on Saturday, October 1, 1994

Dear Jeff:

Your class on "Breathing Space" was the highlight of the convention as far as I am concerned. As we discussed, you did not say anything the class did not already know, but you formalized it and confirmed our suspicions. Now if everyone can "find the time" to put it into practice we will be ok.

Thanks for the book, I plan to read it immediately, if I can stop my wife from reading it first. Keep in touch, I would like to know about other books and seminars.

Sincerely,

Henry E Greenwood
