Dear Jeff,

I am writing to you in response to your speaking at our Minnesota Medical Group Management Association Summer Conference in Alexandria, MN.

I was able to attend both of your sessions that weekend, and enjoyed them both. You are very interesting and easy to listen to, unlike many speakers at such conventions. You relate well to our professional and personal lives and how we can improve them both.

Thanks again for the informative presentations. I look forward to listening to the tape and sharing it with others.

Sincerely,

Eric P. Nielsen
Assistant Administrator
