Dear Jeff Davidson,

I attended the 16th Annual Nursing Leadership Conference at Salishan in Oregon on October 19-20, 2000. That was several days ago, and I still feel “enlightened”. Your lecture on “Managing the Pace with Grace” left me with a powerful message to *Simplify my Life*. I went home and shared some of the information I had gathered with my husband and announced that we should start removing some of the clutter and collectables around the house. He agreed that it was a great idea and then added, “*but stay away from the shop*”.... not surprisingly, that was off limits !!

I especially enjoyed the stories about you daughter Valerie. Funny how that personal touch helps us to connect with one another.

Thanks again for an inspirational and rewarding conference.

Sincerely,

A handwritten signature in cursive script that reads "Joni Scholz". The signature is written in black ink and is positioned below the typed name "Joni Scholz".
