Dear Mr. Davidson:

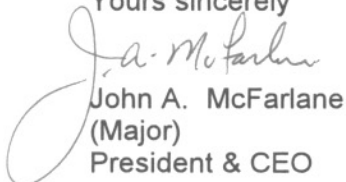

**RE: AMERICAN COLLEGE HEALTH CARE EXECUTIVES SESSION #79A
"MANAGING THE PACE WITH GRACE"**

Thank you for providing some practical solutions to helping our professional and personal life to manage our time and to focus on our priorities. When I returned to the office after the conference, my desk had several piles of files and new correspondence and I have already directed my Administrative Assistant to contact several of these firms to be removed from their mailing lists.

The time shared with you was a perfect way to complete the conference. I will be sharing your hand-out with other members of my senior Administrative staff to challenge them in their personal practices as well.

Once again, thank you for being direct and challenging.

Yours sincerely

John A. McFarlane
(Major)
President & CEO
