Mr. Jeff Davidson  
2417 Honeysuckle Road, Suite 2A  
Chapel Hill, NC 27514-6819

Dear Jeff:

Your presentation at TCCE was excellent. Your five "Mega-Realities" are certainly on target. I particularly appreciated your statement that "we will know when we have reached the information age when the technology becomes invisible." That will also mean the interconnection between different systems are seamless instead of restrictive. Thank you again!

I look forward to receiving your newsletter and tape. I am going to buy your book "Breathing Space" for my 27 year old architect son.

When you are in Jacksonville, I would like to have a meal with you on the oceanfront at Ponte Vedra.

Sincerely Yours,

Henry Luke
