Dear Mr. Davidson:

I attended your workshop on Public Speaking Made Easy at the NC Public Transportation Conference in Wilmington.

I enjoyed your presentation and found your '**Steps to a Better Presentation**' to be most helpful. I have always had a fear of public speaking. I suppose like most people my comfort zone is in a small setting. When I step in front of a large group it feels as if I am in an airplane hanger.

I purchase two of your books you offered at the workshop and I am looking forward to receiving your tape. I am starting a file of stories I have plenty.

Thanks again for your helpful insight.

Sincerely,

Priscilla Dorsey
