Dear Jeff Davidson:

Hi! I wanted to let you know that I enjoyed the workshop you gave at Carolina Medical Center on Holiday Stress. It was very interesting. I thought your presentation skills were great and the whole subject of de-cluttering your life made a lot of sense and was helpful.

I would very much like to get sent one of your free tapes. I would like to also have information about details of how to get in touch with you about using you as a possible speaker.

Thanks.

Sincerely,

A handwritten signature in cursive script that reads "Julie Robinson".
