Dear Mr. Davidson,

I enjoyed your presentation very much at the Carolina Medical Center in Charlotte, N.C. Since I consider myself a pack rat it was very helpful to know that I am probably still holding on to the past and ways I can resolve the problem. Also I realize that I do not immediately take care of papers that come across my desk or mail I receive. I really appreciate the handouts we were given at the workshop and have shared them with my coworkers.

Sincerely,

A handwritten signature in cursive script that reads "Patty McDonald".

Patty McDonald
