Dear Mr. Davidson:

I thoroughly enjoyed your Keynote Address and Conference session on Wednesday. As a matter of fact, your lunch address was so inspiring that I hurried down to the registration desk and changed my afternoon session in order to hear more of your wonderful ability to motivate.

I thought your presentations were excellent. You use humor superbly and I especially liked the stretch breaks during the afternoon session. Quite frankly, I wouldn't change a thing. I look forward to an opportunity to hear more from you on your tape. Again you were truly an inspirational and motivational speaker.

Sincerely,
