Dear Mr. Davidson:

I found your program to be quite relaxing and enlightening as to items I can change in my life that will make it easier for me to stay in this business for many years to come. I especially appreciated the idea of going through the file cabinets and throwing away those items that no longer needed to be there. In fact, I have already taken that first step and have cleared out the information from one half of one drawer. Who knows, over the next few weeks I may be able to get through the entire file cabinet.

I did appreciate the program and hopefully some of the other insights you shared with us will be useful to me in the future. Again, thank you for providing the program.

Sincerely,

James W. Pope, FACHE
Chief Executive Officer
