Dear Mr. Davidson,

I enjoyed your lecture on making the holidays less stressful. The part that was most helpful to me was concerning advance planning. I always try to do as many things ahead of time as possible. I am in graduate school at UNC-Charlotte in Counseling and Guidance. I need all the help that I can get. Also, I haven't been very interested in the news for years, and since I took great notes today, I will educate my husband as to how he can better spend his time!

Again, I did enjoy your lecture, and it was very much worth the time.

Sincerely,

Chris Patterson
