Dear Jeff:

Beginning today, I intend to clear some of the clutter out of my wallet - however, I do think I will carry your card listing the Breathing Space Principles. I have never been one to listen to the news every time it was on - and always felt a little guilty for not wanting to know about every headline that was discussed. Now, thanks to you, I realize that is actually a positive thing I am doing to maintain sanity in my world.

I intend to share your principles with my supervisor and, hopefully, this time next year we will be minus a lot of excess paperwork!

Thanks for a great talk.

Sincerely,

Sharon Eaton
