Dear Jeff,

On behalf of the officers and board of the Potomac Chapter of Meeting Planners International, thank you so much for your excellent presentation to our members on time management.

Your speech marked the inaugural event of our new forum series, designed to be small group intensive workshop programs. With your excellent presentation we have a great start to this new endeavor, so thank you!

My colleagues in the meeting planning industry are among the most harried people I know so your encouragement to create a breathable environment by clearing away the stacks of paper and doing one thing at a time was profound advice.

Best wishes to you as you and your family settle in in North Carolina. Won't you miss the congestion of the Beltway? (!).

Sincerely,

Jan Kary, CMP
