Dear Mr. Davidson:

I very much enjoyed your presentations at the ACHE Congress on Healthcare Management in Chicago earlier this year. In terms of feedback, I found your remarks well organized, interesting and thought provoking. You really had me bought in to a new life until you got to that "clean desk" stuff. With that you were asking for a major life change! As you can see for from the enclosed picture I am challenged in this area. I am keeping your handout close, and reviewing periodically, but to date can admit to only marginal progress on the desk. In other areas I have unloaded a ton, and I thank you for that.

I would appreciate information on how to book you for speaking engagements. I am involved with several groups that would enjoy your perspective. I look forward to receiving this information in the near future.

Sincerely,

K.C. DeBoer
