Dear Jeff,

I attended your recent training in Pierre, South Dakota and since the training have been busy cleaning up my office and making more "breathing space" at home as well. I enjoyed the way you presented the information during the session and have shared the packet with other co-workers who did not attend the training. I'm still waiting to hear what they have to say about the material.

With the holidays approaching, it was a good time to hear (and act upon) your recommendations for making more 'breathing space'. I enjoyed your presentation and will recommend to others that they attend future presentations.

Hope you enjoyed your visit to South Dakota.

Sincerely,

A handwritten signature in blue ink that reads "Arlene".
