Dear Jeff:

I really was impressed with your presentation on "Breathing Space" at the Texas Chamber of Commerce Executives meeting in Austin. I have already put into action some of your recommendations. I spent the weekend cleaning out a desk and my closet and had my wife involved in the same. I would appreciate you sending the cassette on "Breathing Space". I plan on staying in touch and keeping you informed as to the progress that I make. Looking forward to having an occasion to get you back down to this part of the country in the future.

Sincerely,
