Dear Jeff,

I just wanted to let you know how pleased we were with the satellite course you did for us on "Breathing Space." It was great working with someone who both met deadlines and was good about keeping me apprised of potential problems, delays, etc. (This was particularly helpful since we were dealing with each other cross country.)

You came across very well on camera and your down to earth attitude and willingness to listen to suggestions made you easy to work with. I look forward to doing future programs with you.

Sincerely,
