Dear Mr. Davidson:

I enjoyed your presentation at the ACHE very much. Since listening to you, I have been successful with doing one thing at a time. Just concentrating on that has made a difference. I am less stressed. Realizing that it is not possible to keep up on everything given the massive amounts of information we are inundated with has made a difference to me. The pressure is off!

I am working on incorporating your other hints too! Keep up the good work.

Sincerely,
