Mr. Davidson:

Just a quick note to let you know how much I enjoyed your presentation at the November 10, 1995 AENC meeting.

I definitely agree we are living a very fast pace life. When you suggested taking time for silence and not turning on the T.V., I smirked! How could I do that? Well, Saturday, November 11, our power was out due to a severe storm. I took a deep breath, relaxed and slowed down. Any other time, I would have listened to my battery operated radio!

Thanks again for your animated presentation and for reminding me to take time for me.

I look forward to listening to your cassette.

Sincerely,

Lisa Pacheco
