Re: Presentation to Indiana CPAs on
June 24, 1995, at the Grove Park Inn

Dear Jeff,

My wife, Karen Behnke, and I had breakfast with you before the *Breathing Space* seminar held on June 24, 1995, at the Grove Park Inn in Asheville, North Carolina. I also spoke with you briefly after the session.

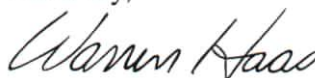

When we saw the CLE summary, Karen and I were disappointed that the program committee was spending so much time on non-technical CLE. To be candid, we were not looking forward to the final *Breathing Space*. You quickly dispelled our preconceived ideas and we found ourselves learning a great deal and also enjoying ourselves in the process.

I benefited more from first half. In recent years I haven't given much thought to the population explosion, but I have spent a lot of time dealing with the information explosion and also being unhappy with the media growth. The second half was interesting, because in the last few years I have put into place most of the choices you suggested to reduce stress.

I hope Karen's employer was listening during the second half, because her firm requires its employees to be engaged in numerous activities in the community. As a result, Karen feels she is under a great deal of stress both at work and in her private life. Your message came through to us that employees are more productive, if they have fewer distractions outside of the work environment,

If I am ever in a position to have input concerning continuing education for attorneys in Indiana, I would be happy recommending that you be employed to present your *Breathing Space* seminar. Thanks again.

Sincerely,

Warren Haas
