Dear Jeff,

On Tuesday night, March 9th, while listening to you speak, I was brought back to who I was. This was the finest gift you could have given me.

Your presentation was filled with helpful information and the manner in which you held the stage was impressive; but, the overwhelming thing that clicked for me was how you talked about yourself with passion for your craft and a true belief in yourself. The bottom line, is that you exhibited a desire for making this a better world with purpose and passion filling your sails.

Thank you for enhancing my world. You gave me just what I needed. I grew another inch or two!

Sincerely,
