Dear Mr. Davidson:

This past week I have been following up on some of the job ideas that you shared with me. You were very kind to take the time to discuss those ideas. I have been better able to cope with my unemployment situation because of people like you who have given me some encouragement.

It would please me if you would keep my application on file. If there is an opening at Profiles for which I would qualify I would be happy to talk with you again.

Thanks for your consideration.
