Dear Jeff,

This is a belated note of thanks for an excellent session!

The information that you gave me was invaluable, and I just finished having the tapes transcribed. I've appreciated your follow up notes, as well.

I was wondering if you would allow me to take you up on your offer of a 25-day period of being able to ask you questions on the telephone, about our consultation --- but I'd like to use them at a later date. Because I am completely immersed in creating a series of video training modules for the next 60 days, I am unable to focus that much on the book right now. I plan to work on it during the fall, and I would love to be able to ask you questions then, if I have any.

I'd be happy to recommend your services to others. Once again, thanks!

Sincerely,

A handwritten signature in blue ink that reads "Pamela Yellen". The signature is fluid and cursive.
