Jeff,

I really enjoyed your presentation at the ISNA Spring Seminar in Plainfield, IN. The statistics are astounding and make me think of how progressive we are as humans. Also, I have been trying to simplify my life and dump the junk. I got some good ideas and will implement them before I close my cafeteria for the summer so I am ready when I come back in August. Hopefully this will help me not feel so stressed by the paperwork.

Please send information to my home address as school will be closing down soon. Thanks so much and best wishes in your endeavor to help us back up to the simpler things in life.
