March 13, 1998

Mr. Jeff Davidson, MBA
Breathing Space Institute
2417 Honeysuckle Road, #2A
Chapel Hill, NC 27514-6819

Dear Mr. Davidson:

The purpose of my letter is to follow-up and provide feedback on the presentation that you provided to the American Healthcare Executives in Chicago during the week of March 1-4. I had the pleasure of listening to your luncheon and workshop on "Managing Pace with Grace". I found the statistics and information provided quite fascinating, and I received several helpful hints in helping and understanding how an executive can thrive in the hectic pace of management in today's healthcare environment.

I am the Executive Director of Fellowship Hall, which is a 48-bed alcohol and drug treatment facility located in Greensboro, North Carolina. My facility has an outstanding reputation for helping people manage an otherwise unmanageable life. Perhaps, your expertise could provide some benefit to my staff, so if you could provide some information regarding your educational services, it would be much appreciated.

Sincerely,

Rodney L. Battles, MBA
Executive Director
