Dear Mr. Davidson:

I attended your seminar on Wednesday March 4th from 2-3:30 p.m. I found your seminar to be beneficial and enjoyable. Your seminar was one of the few that I attended that was entertaining. In other words, I found myself not dosing off and actually sitting at the end of my seat waiting to hear what was next to be said.

I'm sorry I don't have any suggestions for you to make. I would suggest your seminar to others to attend if available next year. I hope you continue speaking to others about ways to make your life easier to cope with.

Sincerely,

Jennifer L. Fullington
