Re: ACHE Congress Session

Dear Mr. Davidson,

I enjoyed your presentation.

Discussing my "last" session (79A) with our VP of Human Resources, more purpose is being served. He attended the luncheon at which you spoke. Both of us already had the "I'm overwhelmed syndrome," but now we know all have this syndrome. There is comfort in shared misery. I shall share the tape with my peer for its healing qualities.

Since you are in North Carolina, I'm hopeful we'll have the opportunity to cross paths again.

Sincerely,
