What good is it to have a blog, a Facebook fan page, a Twitter following, or a huge LinkedIn network if you have little or no fresh content to share with others? Discover how to more quickly and easily create written content that you can distribute all over the web and beyond. Our presenter, **Jeff Davidson** doesn't like to write. Yet he is among the most prolific people you could meet: he has written 59 mainstream books that have been translated an aggregate 141 times, 32 ghost books, 260 ebooks, and more than 3000 published articles. He is also the creator of 24 iPhone apps and 67 audios. In this illuminating session, Jeff will share his secrets for creating content (almost instantly), using outlines and notes to great advantage, drawing

upon what you've already written, and leveraging your intellectual property to use over and over again

Join us to learn and share successful writing and distribution strategies, tactics, and tips.
