HANDLING THE INFORMATION OVERLOAD

Jeff Davidson

Over-informed? Overwhelmed? Does too much paper, too much to read, too much to hear, and too much to keep pace with stress you out?

The Greater Southwest Houston Chamber of Commerce and the Galleria Chamber of Commerce invite you to a seminar entitled "Handling the Information Overload" slated for Thursday afternoon, November 9.

Attendees will gain new outlooks and strategies on encountering, ignoring, accessing, managing, and deleting information. In addition, busy executives will learn how to make effective decisions with less hard data.
